The screenshot displays the Elcomsoft Distributed Password Recovery application window. The interface includes a menu bar (Recovery, Edit, View, Agent, Server, Help), a toolbar with icons for Apply, New Task, Start, Delete, Enable, and Disable, and a sidebar with navigation options: Recovery, Agents, Connection, Alerts, and Cache And Log.

The main window features a table listing agents with the following columns: ip-address, host name, benchmark, administration (ver.), time to live, and status. The table contains 12 entries, with the last entry, 'osygina' at IP 127.0.0.1, highlighted in blue.
